A f f i d a v i t .

I, Ludwig WOLF, born on 19 September 1881 in Mittelstille, district Schmalkalden, at present residing in Essen, Alexanderstr. 2, am Chief of the office for labor questions at the firm of Fried. Krupp since 1 July 1931.

I am familiar with the importance of an affidavit and know that I am liable to punishment if I make a false affidavit. Remembering these facts I state the following under oath:

The attached photostat "Survey of the members of the staff reported to the plenipotentiary of the Reich Trustee for Labor or the Gestapo for absence from work in violation of their duty etc. during the period from May 1939 to 31 January 1945 and the measures taken in these cases" is a photostat of the authentic copy which is contained in the files "Labor Allocation" A 94 a, volume 2 of the office for labor questions of the firm Fried. Krupp. According to the list of persons to whom it was distributed which appears on the copy, the original was at that time sent to Herr IHN. The original was at that time most probably signed by me or by my deputy, Herr NICKNSCHWITZER or Herr HOBERG.

Furthermore I state that these surveys are the same which were made in regular intervals and sent to Herr IHN.

I have carefully read this affidavit and signed it in my own handwriting.

Essen 3 March 1948 signed: Ludwig WOLF

I herewith certify and confirm the signature of Herr Ludwig WOLF which was affixed in my presence.

The difference between the figures A) on one side and B)
to D) on the other side is explained by the fact that the Reich
Trustee or the Gestapo took in most cases where reports were
submitted repeatedly one measure only.
