

(SPEER-
Exhibit No. 23
Schneider Exhibit No. 199)

21st meeting of the Central Planning Board, dated 30 October
1942, concerning "Labor Commitment".

Page 15: "Speer: The question of slackers is
another point which we must discuss. Ley has ascertained
that in those cases in which plant physicians are available
and in which the men are examined by plant physicians, the
sickness rate immediately declines to one quarter or one
fifth. There is nothing to be said against the SS and Police
taking drastic steps in this matter and putting notorious
slackers into concentration camp plants. There is no
alternative.

If this has happened a few times, the news will soon
spread..."
