22 March 1944

By special messenger.

Works security police, received 22 March 1944

In our letter of 14 March 1944 we make application for the Eastern worker, Michael JANUSIN, factory No. 078396, born on 5 May 1922, residing at the Frintzenerstrasse camp, to be transferred to the reform labor camp Dachenschule.

The transfer is meant as an educational measure and his confinement there is to last 14 days.

We ask you to notify us as to whether the transfer has been carried out in the meantime.

signed: PEEUER.

Enclosure submitted to Herr von BUELOW.

Applications of this kind should really go through the office of the Agent for Labor. It also makes a peculiar impression that the plant prescribes the length of the confinement in the special camp.

Our investigations of 24 inst. have shown that JANUSIN has been duly placed on the sick list since 18 inst., while the plant submits a proposition as late as 22 inst. that the man should be transferred to a labor reform camp.

As is known, the Eastern workers, male and female, from the Special Camp Dachenschule have been transferred to the camp Suederich-Schule. Therefore a transfer to the Dachen-Schule camp is no longer possible. The plants should be informed of this fact.

Works security police.

The Eastern worker, Michael JARLUSIN, factory No. 078396, born on 5 May 1922 residing at the Frintroperstrasse camp, has not reported for work since 7 March 1944 as shown by the clocking-in control card. The reasons for his absence could not be ascertained by us at the camp office.

J. has been guilty of shirking under aggravating circumstances in repeated instances. During the month of February 1944 J. had escaped for a considerable period; he was apprehended by the police at Dortmund and was brought back to the Cast Steel Plant.

The measures taken by the plant were not able to induce J. to resume his work in a regular way.

As an educational and punitive measure we propose that J. should be transferred to the labor reform camp Dechenstrasse. This procedure should provide a way of inducing him to work regularly.

The Betriebsfuehrer
