In the course of last week, due to the fact that the foreign workers, especially Poles, could not be relied upon to appear at work, there was an extraordinary decrease in production. Loss of money and fines did not obtain the desired results.

Especially during holidays, we were not able to find a responsible person in the camp Seumannstrasse, to whom we could have referred. We ourselves are short of guards to fetch the Poles from their camp, and to guard especially at night. Our production is greatly endangered. Therefore, for the time being, we named a few apparently reliable Poles as foremen. If it is not possible to get some sort of order amongst the foreigners within the next few days, in this way, we shall be forced to get rid of the unreliable elements and in that case we shall have to have a greater number of new workers sent to us. There are difficulties with the Italians, because of the supposed insufficient administration of the Rottropperstrasse camp. In order to ascertain whether the constant complaints of the Italians have any foundation, it is vitally necessary once and for all, for a responsible body to see that everything is in order.

(We draw your attention to our letter to Dr. Hintz of the 31.3.1942)
