Transcript
of the discussion in the Reich Ministry for
Armament and Munitions, Generalreferat (section)
for Economy and Finance, held on 27 May 1943
on the subject of the transfer of the tractor
production department of the Krupp Firm to Muel-
hausen.

Present: Prof. Dr. Hettlage Reg. Rat Dr. Scheuermann	}	Generalreferat
Min. Rat Saucr - represen- tative of the Chief of Civil Administration in Alsace		Secretariat for the Land of Baden, Berlin
Director Dr. Janssen Director Dr. Joeden Director Eberhardt Director Roth Director Habermass	}	Krupp
Director Schumacher Director Dalmer Director Oehel	}	Elmag/Muelhausen

The Reich Minister for Armament and Munitions has ordered the transfer of the tractor production department of the Krupp Firm from Essen to Muelhausen to the factory shops of the Elmag there. The purpose of the discussion was to arrange an agreement as quickly as possible amongst those present to the end that the tractor production department may resume operations in Muelhausen at the earliest possible date.

Results:

1.) Under the space and factory conditions at the Elmag, Muelhausen, the production department of the Krupp Firm which is to be transferred may be set up in Muelhausen at once. The persons concerned will determine the details on the spot; in this connection consideration will have to be given to the fact that the Elmag's existing machine production department, the large instrument workshop, and the textile machinery

Copy.

production department (the latter for export purposes) must be kept in operation. The machine tool construction department and the signal equipment department of the Elmag are to be discontinued.

(Page 2 of original)

To the extent required by the technical arrangements for setting up the production department, it may also be necessary to appropriate nearby facilities by confiscation.

- 2.) It is not practicable to operate the two production departments of Krupp and of the Elmag separately as to production and accounts. A unified management of the entire complex is indispensable; it is to be carried on outwardly as the Firm of Elmag, but the business management of this firm (Vorstand) is to be re-inforced by a representative of the Krupp Firm. In view of the immense importance of the tractor production department, the chairman of the Vorstand is to be appointed by Krupp. As for the rest the assignments of tasks of management and of responsibilities within the Vorstand with its several members is to be follow the usual practice. By this means unified control of operations in respect of technical and commercial matters can be attained, separate accounting for the two productions departments in the Muelhausen Works is to be avoided as far as possible.

On the aforementioned basis the Vorstands of Krupp and of the Elmag, in agreement with the Chief of Civil Administration, will find a form of organization which will make it possible to carry out with all speed in the Muelhausen Works the armament programs which the Reich Minister for Armament and Munitions wishes to have fulfilled there.
