To Director Eberhardt.

Subject: your teletype of 16 Sept. 1944. 17:00 hours.

On the basis of our contract with Minister-President Koehler (compare the file memo submitted with our letter of 15 Sept.) and a subsequent agreement between Minister-President Koehler and Reich Minister Speer, the complete evacuation of tractors will be continued according to a report of the armament inspectorate. Hence the tractor manufacture will cease towards the end of this month. According to expediency, the manufacture of replacement parts for tractors and vehicles will go with tractor manufacture. The evacuation of crank-shaft manufacture will also continue. No evacuation report has been received for centrifugal castings. The evacuation of 8,8 flak manufacture will continue. The confiscation of machinery for gun manufacture could not be achieved, but the ag. and edz. have already agreed according to article 13 (3) of the lease contract. The rental agreement for rental (Ueberlassung) of the machinery will be worked out by the ag. As soon as closer insight is possible, negotiations will be initiated on the reduced possibilities to utilize the installations, also concerning the machinery delivered, space made available, released personnel, terminated expense account possibilities, etc.
