

I, Dr. Gerhard W E I Z, Assistant Defense Counsel for Karl  
E B E R H A R D T in Case X of the American Military Tribunal in  
Nuremberg certify herewith the attached Document:

Teletype dated 1 October 1943 from KRUPP's Berlin office  
to the Main Office of the Machine factory, Essen No. 40,  
was correctly photographed from the documents which were put at my  
disposal by the Prosecution in Nuremberg as captured documents, and  
that the photocopy is a complete copy of the original.

Nuremberg, 8 May 1948

Main Office of the  
Machine Factory

Received: 2 October 1943

Essen, No. 40

Replied:

Subject: Shifting of our Fuse Plant.

Herr WEINHOLD negotiated yesterday with Major ABENDROTH (Colonel ZIMMERMANN, who was absent, had appointed A. to conduct the negotiations) Chief Inspector WURZBACHER and Inspector BERGEMANN.

W. reported that we had found manufacturing premises in Kettwig which seemed suitable and would allow us to <sup>start</sup> up production quickly. Major A. ENDROTH, however, immediately raised objections on account of the danger from planes and stated that Colonel ZIMMERMANN would on no account agree firstly to the production of fuses being transferred to the West, and secondly to a place where such a factory already exists. For the same reason Chief Inspector WURZBACHER does not want to put any machinery at our disposal in Kettwig.

Major A. ENDROTH was convinced that the Inspectorate for the Allocation of Armament Orders, 8 b Kattowitz still had suitable plants at their disposal. He sent an fs message, (teletype ?) that Herr WEINHOLD would visit Kattowitz today.

Herr WEINHOLD has also got in touch with Rue In 4 (Armaments Inspectorate) Dresden and made an appointment for a conference for monday. If, however, Rue In 8 b has suitable plants, then these will be first inspected by W.

Page two of the Original.

According to the opinion of Herr WEINHOLD, there is just a possibility that BLOEDNER, in Gotha (?), might have something suitable. He asks therefore that Dipl.Ing. MELZER (owner) should be called up in Gotha (Tel.1321) from there. Chief Inspector WURZBACHER could not yet say anything definite concerning the allocation of machinery.

Herr WEINHOLD will be in Berlin again next week in order to arrange with W. about the delivery of the machinery.
