A f f i d a v i t .

I, the undersigned Dr. Ing. Paul HANSEN, department chief and plant director for the firm of Fried. Krupp, born in Cologne on 22 June 1902, resident at Essen, Goethestrasse 32, have been cautioned that by making a false statement I render myself liable to punishment. I declare on oath that my statement is true and was made to be submitted as evidence before the American Military Tribunal in Nuernberg.

The attached survey of the Fried. Krupp cast-steel factory 1:5000, was drawn up in the technical office of the cast-steel factory in 1947, and represents the position as per January 1943.

The entire ground-surface amounted to 4,8 qkm, the built-up area of the cast-steel factory to 1,55 million qm, and the length of the normal gauge rail track, to about 166 km.

In January 1943 the steel production amounted to approximately 54 500 tons per month - the entire staff amounted to 62 770.

In 1943, the capacity of the machines installed in the electrical power-works of the cast-steel factory amounted to 130 000 thousand watts. The factory's yearly 1000 watt/hours consumption amounted to about 25 million kilo watt/hours and was about double as high as the consumption figure for the whole of the city of Essen, which possessed a population of approximately 600,000 persons.
